Filtered Cooling Unit to help with optimal performance and reliability.

BOFA's Advantage 200 Cooling Unit is an electrically driven, cooling air unit. It supplies cool, filtered air to both the laser and power supply module. This clean, cool air helps with optimal laser performance and reliability.

Approvals: REACH and RoHS. See individual product technical data for specific accreditations

Technical specification

- 1. Unit / filter condition light
- 5. Outlet
- 2. On / off switch power inlet
- 3. Filter compartment latch
- 4. Motor cooling in & out

6. Air inlet

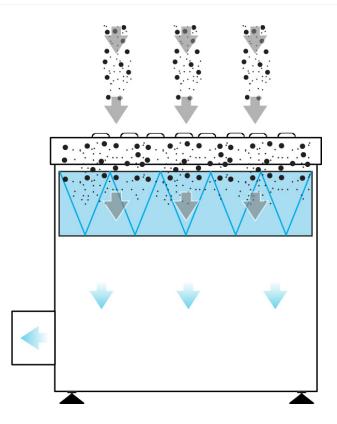

Airflow through filters

Contaminated air

Particulate

Technical data

	EU	US
Dimensions (HxWxD)	260 x 250 x 285mm	10.24" x 9.85" x 11.22"
Cabinet Construction	Brushed stainless steel	Brushed stainless steel
Airflow / pressure	200m³/hr / 30mbar	117cfm / 30mbar
Electrical data	230v single-phase 1~ 50/60Hz full load current: 1 amps / 135watts	115v 50/60Hz full load current: 1.2 amps / 135watts
Noise level	< 54dBA (at typical operating speed)	< 54dBA (at typical operating speed)
Weight	8.3kg	18lbs
Approvals	UKCA and CE	UKCA and CE

Pre-filter specifications		
Filter media	Borosilicate	
Filter media construction	50mm folded pleat	
Filter efficiency	96% @ 2 microns	

Optional HEPA filter specifications		
HEPA filter media	Borosilicate	
HEPA media construction	Maxi pleat construction with glue bead spacers	
Filter efficiency	99.997% @ 0.3 microns	

Part numbers				
Model	Voltage	Part number		
AD 200 CU stainless steel	230V	L1152A		
AD 200 CU stainless steel	115V	L1151A		

Replacement filters			
Model	Pre-filter	Optional HEPA filter	
AD 200 CU	A1030162	A1030263

Where applicable, the carbon used in BOFA units is capable of removing a wide range of VOCs, however it is the responsibility of the user to ensure the carbon is suitable for their application. For specific applications, please contact us for details.

Important Notice: Many factors beyond the control of BOFA can affect the use and performance of BOFA products in a particular application, including the conditions under which the product is used. Since these factors are uniquely within the user's knowledge and control, it is essential the user evaluate the products to determine whether the product is fit for the particular purpose and suitable for the user's application. All products, product specifications, availability and data are subject to change without notice, and may vary by region or country.
